Paper No./Mail Date \_\_\_\_\_.
7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other \_\_\_\_\_.

## **COMMENTS**

### ***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: claim 1, the independent claim defines a method for sewing together at least two covering elements which will undergo a foaming process for forming a foamed product. The method steps comprise providing a sewing machine with a sewing means and three threads, first two threads and a further thread. Operating the sewing machine such as to feed the two covering materials at a predetermined feed pitch and inserting the said two first threads into each needle hole formed by the needle and entwining the two threads with the second thread within each hole for sewing the covering materials. The dependent claims further limit the method for sewing together covering elements of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Pertinent Citations***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bohlinger et al. Illustrate covering materials being sewn where further upper and lower threads are laid onto the materials intertwined with the stitching. Hamann illustrates a cross-stitching needle having an eye where several threads are passable. Gleason et al. Illustrate a backpack having covering elements and foamed interior portions. Iida illustrates covering elements sewn in preparation for a foaming
